ABOUT ME

I believe being genuine and nurturing, along with professional and driven, is an essential combination for people in my field. I possess system development, technical analysis and programming skills. Additionally, my abilities extend to problem-solving and time-management with proficiency in communication. Working with people from diverse backgrounds has provided me with a deep understanding and awareness of differences in both individuals and organizations. These qualities will help to support ASD Technology's mission while reflecting positively on the professionalism and competencies in its employees.
